MONTHLY INFRASTRUCTURE & MAINTENANCE MANAGEMENT AGREEMENT

Agreement Title: Software Maintenance, Infrastructure Management & SLA Contract
Client Name: SRGH IVF Cryo Bank & Storage Clinic
Service Provider: Technical Development & Infrastructure Management Team (Lead: Aditya Kumar)
Monthly Retainer Fee: ₹5,000 / month (INR)
Project Delivery Date: September 30, 2026
Client Testing & Evaluation Phase: October 01, 2026 – October 31, 2026 (Complimentary testing period)
Maintenance Effective Date: November 01, 2026
Billing Schedule: Monthly service starting **1st Nov 2026**; Fee received on **2nd Dec 2026** (and 2nd of each following month).
Contract Terms: Monthly Recurring (Auto-renewable)

---

1. Objective & Contract Overview

This Agreement governs the ongoing technical support, cloud server management, database backup maintenance, security monitoring, and SLA upkeep provided for the **SRGH IVF Cryo Bank Storage & Record Management System**.

By engaging the Service Provider under this agreement, the Client ensures uninterrupted operational availability, medical record security, regular automated data backups, and priority bug-fix resolution for their clinic software.

---

2. Project Delivery Milestones & Financial Schedule

Milestone / Parameter	Timeline / Agreement Terms
Project Delivery Date	**September 30, 2026** (System fully delivered and operational)
Testing & Evaluation Phase	**October 01, 2026 – October 31, 2026** (Complimentary clinic testing & trial period)
Monthly Maintenance Fee	**₹5,000 (Five Thousand Indian Rupees)** per calendar month
Maintenance Start Date	**1st November 2026** (First Paid Service Month: Nov 01 – Nov 30, 2026)
Payment Receipt Date	**2nd December 2026** (Fee for November maintenance received on 2nd Dec, and 2nd of each following month)
Accepted Payment Modes	Bank Transfer (NEFT / IMPS / RTGS), UPI, or Direct Account Transfer
Late Payment Policy	Software updates and non-critical support paused if invoice unpaid after 15 days

> *Note: The monthly fee covers professional management, maintenance, support, and monitoring labor. Direct third-party hosting server costs or third-party API usage fees (e.g., Google Cloud OCR tokens above free tier) remain the responsibility of the Client.*

---

3. Scope of Services Included under ₹5,000 / Month

The monthly fee of ₹5,000 covers the following comprehensive services:

A. 24/7 Server & Infrastructure Monitoring

- Continuous monitoring of Linux Production VPS server, Nginx web server, NestJS Node.js API, and PostgreSQL database.
- Process manager (PM2) watchdog monitoring to auto-restart services instantly in the event of memory overload or crash.

B. Daily Automated Database Backups & Disaster Recovery

- Automated daily PostgreSQL database backups scheduled during low-traffic clinic hours.
- Secure offsite database backup storage to ensure complete data restoration in the event of hardware failure.
- Quarterly disaster recovery test restorations to verify database backup integrity.

C. Security & SSL Certificate Maintenance

- Maintenance and automated auto-renewal of SSL/TLS Encryption Certificates (`https://www.sgrhivfcryo.in/` & `https://api.sgrhivfcryo.in`).
- Application of security patches to Node.js dependencies, Linux OS kernel, and database software.
- Monitoring and audit logging of unauthorized access attempts.

D. Maintenance of AI OCR Integration

- Upkeep and optimization of Google Cloud Vision API & Gemini AI OCR document processing pipelines.
- Updating regex extraction rules for new clinic paper consent form layouts as requested.

E. Priority Developer Technical Support

- Up to **5 hours of priority developer support per month** included at no extra charge for:
  - Minor UI adjustments, label edits, or field display updates.
  - Assisting embryologists or clinic staff with operational issues.
  - Adding or modifying clinic staff user roles and access keys.

F. Bug Remediation & Defect Fixes

- 100% covered resolution of any software bugs, broken reports, email delivery failures, or display errors identified in existing features.

---

4. Service Level Agreement (SLA) & Uptime Commitments

Uptime Target

The Service Provider commits to maintaining a **99.9% Monthly Uptime** target for the clinic portal and backend API.

Incident Response Time Matrix

Severity Level	Definition	Targeted Initial Response Time	Resolution Effort Target

Level 1 — Critical	Clinic system offline, database unreachable, or inability to access patient storage records.	**Within 2 Hours**	Immediate continuous resolution until service restored.
Level 2 — High	OCR document scanning failure, email notification failure, or report generation error.	**Within 6 Hours**	Resolution within 24 Hours.
Level 3 — Medium / Low	General queries, staff assistance, minor UI text adjustments, or user additions.	**Within 24 Hours**	Resolution within 48-72 Hours.

---

5. Out-of-Scope Services & Additional Custom Development

Services outside the defined maintenance scope will be quoted separately before work begins:

1. **Major New Module Development**: Building brand new software modules not in the original scope (e.g., billing integration, patient WhatsApp integration).
2. **Third-Party EMR Integrations**: Interfacing with external hospital management systems.
3. **Out-of-Scope Hourly Rate**: Any work requested beyond the included 5 support hours/month or outside scope will be billed at a discounted rate of **₹1,200 / hour** (or flat-rate project quote upon mutual agreement).

---

6. Data Security, Confidentiality & Data Ownership

1. **100% Client Ownership**: All patient profiles, storage straw records, cryo canister data, database SQL dumps, and custom source code belong exclusively to **SRGH IVF Cryo Bank**.
2. **Confidentiality**: Service Provider agrees never to disclose, share, or monetize any medical or operational data of the Client.
3. **HIPAA / Medical Compliance**: Data storage adheres to medical data security standards, encrypted at rest and in transit.

---

7. Contract Termination & Handover Guarantee

1. **Termination Notice**: Either party may terminate this agreement at any time by giving **30 days written notice** via email.
2. **Zero Data Lock-In Guarantee**: Upon termination, the Service Provider will execute a complete handover within 7 business days, including:
   - Latest production SQL database dump.
   - Complete application source code and build artifacts.
   - Master server root SSH credentials and domain DNS records.
   - Transition guidance to the Client's replacement technical team.
