CLINIC STAFF & EMBRYOLOGIST OPERATIONAL USER MANUAL

System: SRGH IVF Cryo Bank Storage & Record Management System
Audience: Clinic Doctors, Senior Embryologists, Lab Technicians & Staff

---

1. Entering the System (Security Gate — Layer 1)

When accessing the web portal (https://www.sgrhivfcryo.in/), you will first see the **Security Access Gate**.

1. Enter your **Clinic Site Access Key** (`ivf@sgrm` or `clinic2026`).
2. Click **Unlock Access Gate**.
3. Once unlocked, your device will remember access for **7 days** without requiring re-entry.

---

2. Staff Identity Sign-In (Layer 2)

After unlocking Layer 1, you will arrive at the **Clinic Staff Portal**:

1. Enter your assigned **Staff ID** (e.g. `ADMIN` or `STAFF001`).
2. Enter your **Password** (e.g. `IVFadmin`).
3. Click **Sign In to Account**.

---

3. Operational Dashboard Navigation

The Dashboard provides live visibility into clinic storage capacity:

- **Can Storage Overview**: Displays live straw occupancy across all physical Cans (Can 01 through Can 16).
- **Color-Coded Heatmap**:
  - 🟢 **Green**: Low / Medium occupancy (Plenty of available capacity).
  - 🟡 **Yellow / Orange**: High occupancy (Approaching full capacity).
  - 🔴 **Red**: Near 100% full capacity.
- **Pending OCR Alert**: Highlights any scanned patient forms requiring human verification before saving to medical records.

---

4. Registering a New Patient & Vitrification Record

To freeze and store new embryos, oocytes, or sperm samples:

1. Click **New Patient** on the top action bar or side navigation.
2. **Step 1 — Patient Demographics**: Fill in Patient Full Name, Husband/Partner Name, Mobile Number, Email, and Clinical Notes.
3. **Step 2 — Cryopreservation Details**:
   - Select Sample Type (`Embryo` , `Oocyte` , or `Sperm`).
   - Enter Freeze Date, Embryo Grade/Stage, and Color Tag (Pink, Blue, Green, Yellow, etc.).
   - Enter Number of Embryos to Freeze.
4. **Step 3 — Can & Viso Tube Selection**:
   - Select target **Can** (e.g., Can 01) and **Viso Tube** (e.g., Viso Tube 01).

- System automatically enforces **Max 2 embryos per straw rule**.
- Click **Submit & Save Vitrification Record**.

5. **PDF Certificate**: System generates a PDF Cryo Storage Certificate that can be printed or emailed directly to the patient.

---

5. Interactive Container View

1. Click **Container View** on the navigation menu.
2. Select any Can from **Can 01** to **Can 16**.
3. Click on individual Viso Tubes to inspect which straws are occupied, patient details, freeze dates, and straw color tags.

---

6. OCR Paper Scan Verification Workflow

If consent forms or laboratory records are uploaded as physical paper scans:

1. Click **Review OCR** or navigate to **OCR Scanning**.
2. Upload scanned image or select a pending record.
3. The AI engine automatically extracts:
   - Patient Name & Partner Name
   - Vitrification Date & Embryo Count
   - Can & Viso Tube Numbers
4. Review extracted fields side-by-side with the scanned document, correct any typos if needed, and click **Approve & Save Record**.

---

7. Embryo Thawing & Release Workflow

When a patient undergoes a Frozen Embryo Transfer (FET) or sample thawing:

1. Navigate to **Thaw Workflow**.
2. Search and select the patient record.
3. Select the specific Straw ID(s) to thaw.
4. Enter Thaw Date, Embryologist Name, and Reason for Thawing.
5. Click **Confirm & Execute Thaw**.
6. The system marks the straw slot as **Vacant/Available** in the storage matrix and generates an official **Thawing & Release Certificate PDF**.

---

8. Mobile App Installation Instructions

You can install the software as a native app on mobile phones or iPads for quick 1-tap home screen access.

On iPhone / iPad (iOS Safari):

1. Open https://www.sgrhivfcryo.in/ in **Safari**.
2. Tap the **Share** button ⎋ (square with upward arrow) at the bottom toolbar.
3. Scroll down and tap **Add to Home Screen (+)**.
4. Tap **Add** at top right.

On Android (Chrome / Brave):

1. Open https://www.sgrhivfcryo.in/ in **Chrome**.

2. Tap the **Install App** button on the Dashboard, or tap the 3-dots menu **(⋮)** at top right.
3. Select **Install App** or **Add to Home Screen**.
